Special Invitation to Witness History

LAFAYETTE, INDIANA – March 27, 2019 – You are invited to join City personnel at the opening of a recently unearthed time capsule.

A large boulder has been in place of pride in the triangle area by the Columbian Park Zoo entrance for many years. A plaque commemorating the Spanish-American War and dated 1931 was mounted to the boulder. Because heavy equipment was on site, maintenance crews were able to commence relocation of the boulder as part of regular landscaping tasks. As the boulder was moved, a box encased in concrete was discovered under the boulder. Newspapers had been placed on top of the box. Under the watchful eyes of TCHA Executive Director Craig Hadley, a crew from the Lafayette Fire Department will open the box on **Thursday, March 28, at 2:00pm**. Please join us on site as we live stream the opening of the box to social media. We will gather at the triangle and discover what's in the mystery box!
